

Assignment-3

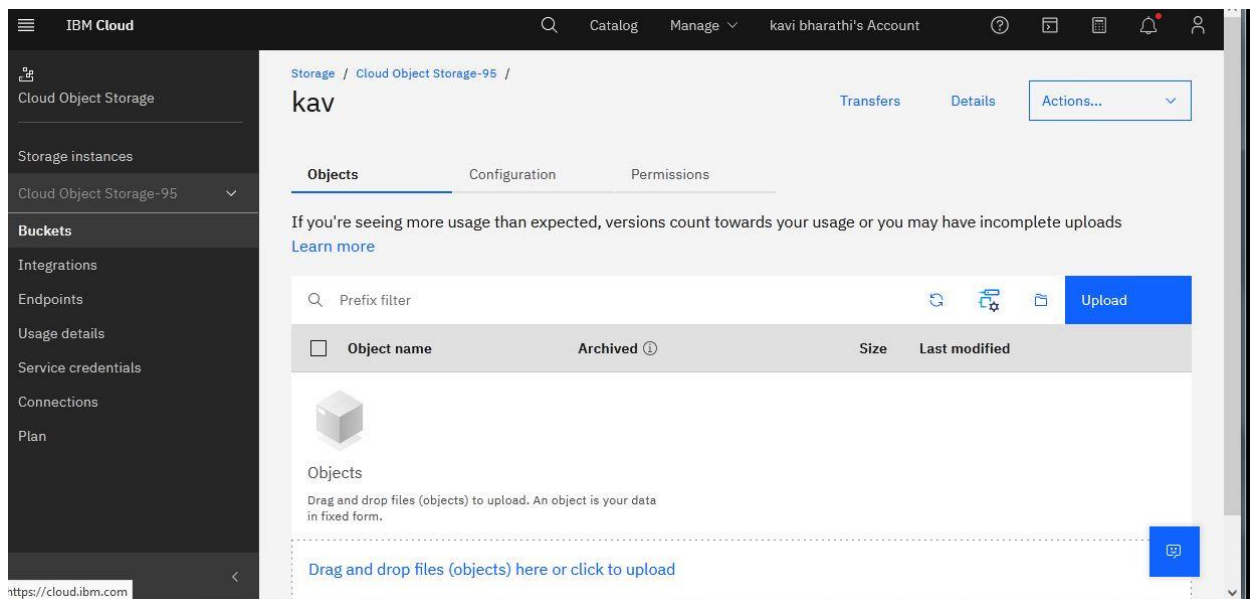

HTML Programming

Assignment Date	08 October 2022
Student Name	T.Kavibharathi
Student Register Number	913319104027
Maximum Marks	2 Mark

Question-1

1.Create a Bucket in IBM object storage.

Solution:

Question-2

2.Upload an 5 images to IBM object storage and make it public.Write HTML code to displaying all the 5 images.

Solution:

<Doctype html>

```
<html>

<head>

<title>First Website</title>

</head>

<body>

<h1>This is images</h1>

</body>

<body>

</body>

<body>

</body>

<body>

</body>

<body>

```

</body>

</html>

Question -4:

4.Design a chatbot using IBM Watson assistant for hospital. Ex: User comes with query to know the branches for that hospital in your city. Submit the web URL of that chatbot as a assignment.

IBM Watson AssistantLifeUpgradetrackbot

Learning center

hi

Customer starts with:
hi

400
total stepsend stepsre-task steps

Conversation steps

1hello,how can I help you?
↓ Continue to next step
#getting_det...

2what details you want?
↓ Continue to next step
can you tell...

New step

Step 4 is takenwithout conditions

Assistant says

I share their contact number...for city
1(9870654324)
city2(9432673498)

Thank you sir

Edit responseEdit validation

Customer starts with:

Enter phrases that a customer types or says to start the conversation about a specific topic. These phrases determine the task, problem, or question your customer has.
The more phrases you enter, the better your assistant can recognize what the customer wants.

Enter phrases your customer might use to start this actionTotal: 1

Enter a phrase
